I did see what looked like a sunk boat offshore a ways. Wasn't sure if it was one of the barges or something else. FYI I marked the location where 3 or 4 of the barges are anchored.

Steve -

In case you haven't spoken with Robert yet...

Not sure what to say except, to be continued!

Subject: [Non-DoD Source] RE: Foster City

Mark,

Alan Shu (Engineer at Foster City) was contacted by Sara from the Coast Guard regarding a half sunk barge and second barge with an excavator in Belmont Slough. She was calling the phone number she had for SaltRiver but no one was picking up or returning her call. She asked Alan if he had a different number and he gave her a cell phone number he had, but no one picks up calls from that line also.

Alan said he has not spoken to SaltRiver for over 3 weeks and according to discussions he had with Mr. Mosley he thought the barge used for the FC Intake project was setting at Cullinan Ranch ready to be offloaded, so he has no idea what they are doing or why they are in Belmont Slough.

The SaltRiver saga continues! These are your people Mark, I recommend Jim revoke your retirement until you clean up this mess.

Best, Rp
